

I am a supporter of the NJ Do Not Call List. I am concerned that the FCC might overturn this act. Since I have signed up, I have not received an unsolicited call from a telemarketer.

I have registered my cell phone on the Do Not Call List. I am aware that a national mobile phone directory is being compiled and am concerned that telemarketers will now try to reach me via cell phone where I have to pay for airtime on a call I want blocked.

I strongly urge the FCC to uphold the Telephone Consumer Protection Act as it is now written.
